## 7" Round RD Series LED Signal Lights

- Rear Turn Light  
#ECV7561TY-RD Yellow
- Stop/Tail/Turn Light  
#ECV7561STT-RD Red

## GOOD BETTER BEST

PRODUCT RATING

- New 7" Round RD Series signal lights are attractively priced for bus fleets to take advantage of low amp draw, reliability, better performance and reduced maintenance costs.
- Advanced inner lens and optics provide a wider angle of light resulting in greater side visibility and increased safety for your drivers and passengers.
- New reinforced metal screw bosses prevent cracking of the lenses due to overtightening of the screws during installation.
- Affixed neoprene gasket creates a tight seal when installed to prevent rusting and water damage to the vehicle.
