GOOD BETTER BEST
 PRODUCT RATING

- New R4 RD Series Signal lights are standard 4" round lights with a lower price for school bus, truck & trailer fleets to take advantage of low amp draw, reliability, better performance and reduced maintenance costs.
- Available in Red Stop/Tail/Turn, Yellow Turn & Red STT/License Plate Combination light with built-in white LEDs to illuminate bus number or license plate.
- STT/License Plate Light is a dual function light that surface mounts above the bus number or license plate.
- Lights are Reverse Polarity Protected with a scratch resistant, UV stabilized lens that resists fading from the sun.
- STT & Yellow Turn lights recess mount into standard 4" round cutouts. Available with Rubber Grommet, Snap Flange, Waterproof Mounting Flange with optional Stainless Steel Dress Ring. Chromed Dress Ring also available (see website for more information & part numbers).

R4 RD Series STT/License Plate light mounted above the license plate area of a school bus.
